

Introducing  
RadomeFlex™

# THE FUTURE IS FLEXIBLE

STEALTH® presents RadomeFlex™, the installation-friendly solution to a costly concealment problem. Using a revolutionary strap connection method, RadomeFlex enhances the maintenance process while making installation faster and easier.

**RadomeFlex offers all-around improvement with:**

- Convenient and easy bolt-free vertical seam connection methodology
- Proven StealthSkin™ material, providing optimum RF performance
- Adjustable diameters, reducing field fit issues
- Easy access, two-part system stays in place during tower upgrades or maintenance
- Replacement/spare straps included with every project

RadomeFlex is available in a range of sizes and exterior finishes.
