

Church Concealments

Are you looking for a concealment that will also help you bring financial strength to your organization? Look no further!

Congregations across the nation are taking full advantage of the financial benefit of having wireless antennas installed on their property.

Raycap | STEALTH® offers a wide variety of church solutions - from steeples to louvers, to windows, crosses and more. Your concealment options are limitless! All of the materials we use are RF-transparent, which means excellent RF performance and quick installation. Whether you are looking for a traditional steeple, or a completely custom concealment, we've got a solution for you!

Already have a concealment on your church property that you're looking to expand or upgrade? No problem!

The Raycap | STEALTH® team has years of expertise with replacements, extensions and expansions. Our concealments grace elaborate steeples in Massachusetts, beautiful stained glass windows in Los Angeles, and numerous custom towers in between! If it's crosses or bells you're after, we can do that too!

Church concealments share many elements with the other types of concealments we offer, however, every site is different, and Raycap | STEALTH® embraces each and every custom job. Sometimes this may mean an increase in cost, but we're happy to work with any budget. We have the ability to create something that hides multiple antennas while maximizing the beauty of any church. Contact us today to begin increasing your wireless signal and the aesthetics of your property.
